

Estrategias para Multiplicar por múltiplos de 10

$$\boxed{4} \times 30 = \boxed{4} \times \underline{3 \times 10} = \underline{120}$$

↙ ↘

$$3 \times 10$$

$$4 \times 30$$

↙ ↘

$$20 + 10$$

$$\left(\underline{4 \times 20} \right) + \left(\underline{4 \times 10} \right) = 120$$
$$\underline{80} + \underline{40} = 120$$
